? for Kershaw

What investigation have you made of the crime ? On behalf of Ray?

What study of you made of the court records?

What evidence have you obtained from prior investigations?

How can you enforce any agreement with the House committee if any member asks questions you consider are outside the agreement?

How do you establish Mr. Ray's innocence by claiming he can name conspirators? How can he without indicting himself? Is what you would have him testify to a matter of his own personal knowledge?

Why are you having him testify before a body that has already called him guilty? How can you see him turning that around or the committee telling the country that it was wrong in its prejudgement?

Are these the same conspiration Ray identified in 1973 when reporters found his claims unfactual?

(If your morgue does not have this I do)

What was wrong with Ray's other counse that prompted you to come into his case?
